Mater Dolorosa

Statement to Mountain Views News

**Mater Dolorosa Pleased with City's
Positive Tone at March 10, 2020 City Council Meeting**

March 12, 2020

Mater Dolorosa has released the following statement, attributed to Cam Thornton, Chairman of the Mater Dolorosa Development Task Force:

We would like to thank Gabe Engeland and his staff for the informational and accurate presentation he provided at the March 10, 2020 City Council session on the development options for our 20-acre "Meadows" parcel. The presentation reflected the cooperative nature of the discussions we have had with the City and provided Sierra Madre's City Council and residents with valuable information they need as we move forward in our efforts to sell the parcel to a homebuilder.

We are deeply appreciative of the positive comments made by every member of the City Council, and we look forward to continuing to work with the City in a positive, non-adversarial manner to see the parcel developed as a low-density new home neighborhood with a large new public park for all of Sierra Madre.

We also appreciate all members of the public who spoke at the meeting, both those who spoke in support of our efforts and those who raised concerns. It is our hope that as our plans move forward and

the Draft Environmental Impact Report becomes public, those with concerns will come to accept that our plan represents the best option for the City, its residents and Mater Dolorosa.

Should you have any questions associated with our development project, please call or email our spokesperson, Cameron Thornton, at (818) 281-2360 or by email at property@materdolorosa.org
