

MATER DOLOROSA
PASSIONIST RETREAT CENTER

October 9, 2020

Dear Neighbors,

We are writing to let you know that during the weeks of October 12 and October 19, you may notice some activity on the lower portion of the Mater Dolorosa property. The crews on the site will be carrying out soils testing work needed for site analysis and planning, as part of the preliminary work that needs to be done prior to the public environmental review process that will follow.

At this time, the work is expected to start on Tuesday, October 13, with a crew marking out work areas and doing some preliminary work. On Friday, October 16, drilling equipment is scheduled to arrive on the site to carry out soil borings within the area proposed for the new park and homes. The work is expected to be concluded on Tuesday, October 20.

If you have any questions, please let me know. For information on the development proposal, please visit www.materdolorosa.org/property.

Peace and Blessings,

Michael J. Cunningham O.F.S.
